## Masks

Masks – you need to wear one,  
Masks – go and get one,  
Masks – girls wear'em,  
Masks – also for men.

Masks – I want mine blue,  
Masks – I like green too,  
Masks – I'm on the team,  
Masks – make folks mean.

Masks – a healthy statement,  
Masks – a life investment,  
Masks – just wear one,  
Masks – without we're done.

Masks – why are they political?  
Masks – the proof's unequivocal,  
Masks – divide blue and red,  
Masks – keep you from dead.

Masks – who'd have thought,  
Masks – a battle well fought,  
Masks – a glimpse of reality,  
Masks - a sign of spirituality.

Masks – make one yourself,  
Masks – or buy it off the shelf,  
Masks – they define who we are,  
Masks – even in the bar.

Masks – unknown in the beginning,

Masks – will the need be ending?  
Masks – a sign of the times,  
Masks – mine has designs.

Masks – we need move forward,  
Masks – they shouldn't be borrowed,  
Masks – define us today,  
Masks – they have much to say.

So mosey on over to the Church of the Earth,  
We have a pew just waiting for you,  
And we'll all rap together about our masks,  
I'll wear mine and you will too.
